

21st Rally «24 Hours Greece» SISA
20-21 October 2018
Central Greece - Peloponnese

Newsletter

The one of a kind Endurance Regularity Rally, the 21st “24 Hours Greece” rally starts on Saturday 20 October 2018.

Ninety determined crews with their well prepared historic cars will start at 10:00 in the morning from the town of Elefsina towards the Alyki and then to Arachova, where the first break of the day. The route goes through the mountains of Fokida and the Rio – Antirrio Bridge to Patras, where a two-hour break of the 21st “24 Hours Greece” will find place and the special prize "12 hours of Greece" will be awarded.

At 11am the drivers will turn on the headlights of their cars, the co-drivers will bring out their flashlights and the adventurous night leg will begin. They will join the day with the night-leg and the determined crews will confront with the nightly special stages of Peloponnese and after 800 kilometres distance and 24 hours duration they will finish in Elefsina.

The Organizing Committee is doing the rally preparations with feverish rhythms and an army of judges & time keepers will ensure the smooth operation of the greatest adventure in the Greek classic automotive scene.

A few words about the 24 Hours Greece Rally:

This event is addressed to well prepared drivers and co-drivers of historic cars who want to live a 24-hour adventure on legendary trails of Greece.

Eligible are all certified classic cars older than 30 years and 'youngtimers' 20-29 years old. Racing license is not required, however driving license for the driver, car insurance and roadside assistance are mandatory.

The duration of the rally from the start till the finish is 24 hours and in between there will be 2 one-hour stops and 1 two-hours break for rest.

The requested distance is approximately 800 kilometers, while for the “12-Hour” prize the kilometers will be limited to 450 kilometers for those who don't want to overestimate their abilities.

The Event is held under the regulations of FIVA, on roads open to public traffic.

Participants will compete in approximately 16 remote special stages, open to public traffic, with approximately 60 timings, with a maximum average speed of 50 kilometers per hour.

For the execution of special stages no sophisticated navigation instruments is required, while a good odometer and one or both stopwatches are sufficient.

All distance measuring, time keeping & navigation equipment are free to use!

The Organizing Committee is accepting already entries and the deadline for entry forms is Thursday the 11th of October. For those who want to ensure their participation on time and take advantage of a discounted entry fee, they can register until 20 September.
