## **23<sup>rd</sup> Endurance Regularity Rally «24 Hours Greece» SISA**

17-18 October 2020

Peloponnese

### Newsletter

The one of a kind Endurance Regularity Rally, the 23<sup>rd</sup> “24 Hours Greece” rally starts on Saturday 17 October 2020.

Up to ninety determined crews with their well prepared historic cars will start at 11:00 in the morning from the town of Corinth towards central Peloponnese. The route continues through Vytina and the day leg stops in Kalamata where a three-hour break of the 23<sup>rd</sup> “24 Hours Greece” will find place.

At 23:00 the drivers will turn on the headlights of their cars, the co-drivers will bring out their flashlights and the adventurous night leg will begin. The determined crews will confront with the nightly special stages of Peloponnese and after passing through the legendary stages of Pissia, Shinos & Psatha and upon completing 900 kilometres of distance and 24 hours duration they will finish in Elefsina.

### A few word about the 24 Hours Greece Rally:

This event is addressed to well prepared drivers and co-drivers of historic cars who want to live a 24-hour adventure on legendary trails of Greece.

Eligible are all certified classic cars older than 30 years and 'youngtimers' 20-29 years old.

Racing license is not required, however driving license for the driver, car insurance and roadside assistance are mandatory.

The duration of the rally from the start till the finish is 24 hours and in between there will be 2 one-hour stops and one 3 hour break for rest and the requested total distance is approximately 900 kilometers.

The Touring Trophy Category is suitable for those who don't want to overestimate their abilities but wish to experience this unique 24 hours event. Total distance and average speeds are slightly lower for this category.

The Event is held under the regulations of FIVA, on roads open to public traffic.

Participants will compete in more than 20 special stages, with approximately 60 timings, with a maximum average speed of 50 kilometers per hour.

For the execution of special stages no sophisticated navigation instruments is required, while a good odometer and one or both stopwatches are sufficient.

All distance measuring, time keeping & navigation equipment are free to use!

The Organizing Committee is accepting already entries and the deadline for entry forms is Friday the 9<sup>th</sup> of October. For those who want to ensure their participation on time and take advantage of a discounted entry fee, they can register until the 28<sup>th</sup> of September.
