Salute to the competitors

The vision of the Sport Club Owners Club of Greece is to organize better and bigger rallies, with rules that offer equal chances for the win to all participants.

The 23rd edition of "24 Hours Greece" seems to be a turning point in the course of this unique rally. Bigger overall distance, tougher schedule and state of the art GPS time keeping, tracking and live results are some of the new features in this event.

For 2020 the organizing committee chose to hold this event in the peninsula of Peloponnese. The routes stretch from the northern town of Korinthos to the southern town of Kalamata and pass through Vytina, the center of the peninsula. In the morning hours, the rally crosses the Isthmus of Corinth and finishes in the outskirts of Athens.

83 crews compete in the 23rd "24 Hours Greece" Endurance Regularity Rally and are ready to fight day & night with gallantry & noble spirit against the winding roads of Peloponnese. 900 kilometers of driving and 250 kilometers of special stages will push men & machines to their limits. The Organizing committee wishes to them lots of fun and a safe finish!

Michael Mouzoukis
Rally Director of the 23rd
